# Eagle Information Services, LLC—Software Solutions for Local Governments

Eagle Information Services, LLC, has been in business since 2001. Our software is currently used in more than 20 Kentucky counties.

We have software solutions for County Treasurers and Finance Officers, County Clerks, Sheriffs, and Occupational/Net Profit Tax Administrators.

## FCAS 5.2

FCAS 5.2 is accounting software for County Treasurers and Finance Officers. In addition to the standard features that you would expect (cash disbursements, receipts, transfers, amendments, etc.), FCAS 5.2 also has these features:

- Generate electronic submission file
- Print 1099s on stock forms
- Integrated Purchase Order system
- Print checks on laser check stock
- Budgeting
- Invoice tracking
- Archival of prior year data
- Produce Budget Amendment and Transfer ordinances
- Multi-user capable
- Many more!

## FOAS 5.2

FOAS 5.2 is accounting software for County Clerks and Sheriffs. It has many of the same features as FCAS 5.2.

The difference is that fee offices are not required to track as much information as the County Treasurer, so FOAS does not include those features in order to allow us to sell it at a reduced cost.

FOAS 5.2 does include the ability to produce the “Form for Budget, Cumulative Quarterly Report and Annual Settlement” that is required by the Department for Local Government.

## ETAS 1.0

ETAS 1.0 is tax administration software for occupational and net profit taxes. It features:

- Track billing and payment of taxes
- Produce billing statements on plain paper
- Produce delinquency letters

## Support

Each software package comes with 90 days of support included in the purchase price. Afterwards, it is recommended that you enter into an annual support agreement.

The annual support agreement includes end-user software support and software updates.

The software packages are regularly updated to respond to any additional requirements by the state and to improve the overall end-user experience.

The annual support agreement is affordable and is billed at either the start of the fiscal year (for FCAS and ETAS) or at the end of the calendar year (for FOAS).

## Pricing

For the most current pricing information for each software package and the annual support agreement, visit our website at:
